#### "Patient Pays" applies to those procedures provided by the member's primary care dentist or approved specialty dentist.

\*All charges for crown and bridge are per unit. There will be an additional patient charge for the actual cost for gold/high noble metal including any upgrade in materials such as porcelain.

\*\*Includes any adjustments for 6 months.

\*\*\*Plan benefits are for active comprehensive orthodontic treatment. They include initial examination, diagnosis, consultation, initial banding, 24 months of active treatment, de-banding, and the retention phase. The retention phase includes the initial construction, placement and adjustments to retainers and office visits for a maximum of two years. For treatment plans extending beyond 24 months of active treatment, the patient will be subject to an office visit fee, not to exceed \$75 per month.

<sup>†</sup>These procedures are specialized and considered a limited benefit. For these procedures, the patient pays the listed copayment plus the difference between the dentist's usual fees for the applicable covered benefit and the dentist's usual fees for the specialized treatment. For example, for a maxillary partial denture with a flexible base (D5225), the patient would pay the copay plus the difference between the dentist's usual fee for this procedure and the usual fee for the covered benefit, a maxillary partial denture resin base (D5213).

This is a brief description of your DeltaCare dental plan. Please consult your Certificate of Coverage for the complete Schedule of Dental Benefits, as well as the terms and conditions of coverage and any limitations and exclusions. Delta Dental imposes no restrictions on the method of diagnosis or treatment by a treating dentist. A benefit determination relates only to the level of payment Delta Dental is required to make.

Your DeltaCare dental HMO plan is designed to make dental care affordable and convenient for you and your family. Under this plan, you pay only the patient copayment amount listed in the Schedule of Dental Benefits. There are no deductibles, no annual benefit maximums and no claim forms to complete.

#### How DeltaCare Works

The panel dentist you select when you enroll in this DeltaCare plan will provide all routine dental care for you and your family. If specialty care is required, your panel dentist will refer you to a specialist who is also a member of the DeltaCare network. You will need a written referral in order to visit a specialist.

You may select a new panel dentist at any time, however you must notify the DeltaCare administrator. Change requests received prior to the 20th of the month become effective on the first day of the following month.

#### **Emergency Treatment**

If you require emergency treatment and you are more than 35 miles from your panel dentist's office or you are unable to schedule an appointment with your panel dentist within 24 hours, you may go to any licensed dentist. Upon submission of the dentist's statement and your proof of payment, Delta Dental will reimburse you up to \$50 (less any copayment amount) in any year for the cost of emergency treatment.

#### **About the Procedures**

The procedures listed below are performed as needed and deemed necessary by the DeltaCare network dentist and are subject to the limitations and exclusions of the program. Please refer to those sections for further clarification of benefits.

These procedures are specialized and considered a limited benefit. For these procedures, the patient pays the listed copayment plus the difference between the dentist's usual fees for the applicable covered benefit and the dentist's usual fees for the specialized treatment. For example, for a maxillary partial denture with a flexible base (D5225), the patient would pay the copay plus the difference between the dentist's usual fee for this procedure and the usual fee for the covered benefit, a maxillary partial denture resin base (D5213).

Missed appointments without 24 hr. notice are subject to a \$10.00 charge per 15 minutes of appointment time.

Any procedure not listed is available on a fee-for-service basis.

#### If you have questions

Contact Delta Dental of Illinois at 800-323-1743.

### **EXCLUSIONS OF BENEFITS**

- 1) General anesthesia, IV sedation, and nitrous oxide and the services of a special anesthesiologist.
- 2) Dental procedures performed for purely cosmetic purposes.
- 3) Dental conditions arising out of and due to Enrollee's employment for which Worker's Compensation is payable. Services which are provided to the Enrollee by state government or agency thereof, or are provided without cost to the Enrollee by any municipality, county or other subdivision.
- 4) Treatment required by reason of war, declared or undeclared.
- Charges by any hospital or other surgical or treatment facility, or any additional fees charged by a dentist for treatment in any such facility.
- 6) Treatment of fractures, dislocations and subluxations of the mandible or maxilla. This includes any surgical treatment to correct facial mal-alignments of TMJ abnormalities.
- 7) Loss or theft of fixed and removable prosthetics (crowns, bridges, full or partial dentures).
- 8) Dental expenses incurred in connection with any dental procedures started after termination of eligibility for coverage or dental expenses incurred in connection with any dental procedure started prior to Enrollee's eligibility with the DeltaCare program. Examples: teeth prepared for crowns, root canals in progress, orthodontic treatment.
- 9) Any service that is not specifically listed as a covered expense.
- Correcting congenital or developmental malformations, including replacement of congenitally missing teeth, unless restoration is needed to restore normal bodily function. This exclusion does not apply to newly born children.
- 11) Cysts and malignancies.
- 12) Prescription drugs.
- 13) Accidental injury. Accidental injury is defined as damage to the hard and soft tissues of the oral cavity resulting from forces external to the mouth. Damages to the hard and soft tissues of the oral cavity from normal masticatory (chewing) function will be covered at the normal schedule of benefits.
- 14) Cases in which, in the professional judgment of the attending Dentist, a satisfactory result cannot be obtained or where the prognosis is poor or guarded.
- 15) Dental services received from any dental office other than the assigned dental office, unless expressly authorized in writing by DeltaCare or as cited under "Emergency Treatment."
- 16) Prophylactic removal of impactions (asymptomatic, nonpathological).
- 17) "Consultations" for noncovered benefits.
- 18) Implant placement or removal, appliances placed on or services associated with implants including but not limited to prophylaxis and periodontal treatment.
- 19) Placement of a crown where there is sufficient tooth structure to retain a standard filling.
- 20) Porcelain crowns and porcelain fused to metal crowns on all molars.
- Restorations placed due to cosmetics, abrasions, attrition, erosion, restoring or altering vertical dimension, congenital or developmental malformation of teeth.
- 22) Fixed bridges used to replace missing posterior teeth are considered optional when the abutment teeth are dentally sound and would be crowned only for the purpose of supporting a pontic. A fixed bridge

used under these circumstances is considered optional dental treatment. The patient must pay the difference in cost between the Dentist's usual fees for the covered benefit and optional treatment, plus any coinsurance for the covered benefit.

- 23) Appliances or restorations necessary to increase vertical dimension, replace or stabilize tooth structure loss by attrition, realignment of teeth, periodontal splinting, gnathologic recordings, equilibration or treatment of disturbances of the temporomandibular joint (TMJ).
- 24) Extensive treatment plans involving 10 or more crowns or units of fixed bridgework (major mouth reconstruction).
- 25) Precious metal for removable appliances, precision abutments for partials or bridges (overlays, implants, and appliances associated therewith), personalization and characterization.
- 26) Soft tissue management (irrigation, infusion, special toothbrush).
- 27) Treatment or appliances that are provided by a Dentist whose practice specializes in prosthodontic services.
- 28) Restorative work caused by orthodontic treatment.
- 29) Extractions solely for the purpose of orthodontics.

#### **ORTHODONTIC EXCLUSIONS**

- 1) Lost, stolen or broken orthodontic appliances, functional appliances, headgear, retainers, and expansion appliances.
- 2) Retreatment of orthodontic cases.
- Changes in treatment necessitated by accident of any kind, and/or lack of patient cooperation.
- 4) Surgical procedures incidental to orthodontic treatment.
- 5) Myofunctional therapy.
- Surgical procedures related to cleft palate, micrognathia, or macrognathia.
- 7) Treatment related to temporomandibular joint disturbances.
- 8) Supplemental appliances not routinely utilized in typical Phase II orthodontics.
- Active treatment that extends more than 24 months from the point of banding dentition will be subject to an office visit charge not to exceed \$75 per month.
- 10) Restorative work caused by orthodontic treatment.
- 11) Phase I\* orthodontics is an exclusion as well as activator appliances and minor treatment for tooth guidance and/or arch expansion.
- 12) Extractions solely for the purpose of orthodontics.
- 13) Treatment in progress at inception of eligibility.
- 14) Transfer after banding has been initiated.
- 15) Composite bands and lingual adaptation of orthodontic bands are considered optional treatment and would be subject to additional charges.

\*Phase I is defined as early treatment including interceptive orthodontia prior to the development of late mixed dentition.
