

What is a benefit summary?

This is a summary of what the plan does and does not cover. This summary can also help you understand your share of the costs. It's always best to review your Certificate of Coverage (COC) and check your coverage before getting any health care services, when possible.

What are the benefits of the UnitedHealthcare Navigate® Plan with an HSA?

Get a plan with a Primary Care Provider (PCP) to help coordinate your care and get an HSA.

This is a health plan that requires you to select a PCP who can help guide you through the health care system so you can get the right care at the right time. Plus, you can open a health savings account (HSA). An HSA is a personal bank account to help you save and pay for your health care, and help you save on taxes.

- > **Select your personal PCP from the plan network.** Each enrolled person must select a PCP. Your PCP must be in an area where you (the subscriber) lives. Your PCP will be your first point of contact when you need care.
- > **You need to get online referrals from your PCP to see a network specialist.**
- > **There's no coverage if you go out of network or if you see a network specialist without a referral.** You will be responsible for the entire cost of the service.
- > **Preventive care is covered 100% in our network.**
